Environmental Policy

Aims

Oxford Professional Education (OxPE) committed to minimising the environmental impact of its activities by adopting good working practices and incorporating sustainable concepts throughout all OxPE activities. OxPE aims to manage its activities in a manner that promotes environmental sustainability, conserves natural resources and prevents environmental pollution to bring about a continual improvement in its environmental performance.

OxPE will comply with all environmental legislation and approved codes of practice and will work to increase awareness of environmental responsibility amongst staff, learners and visitors.

OxPE is committed to sustainability through reducing our consumption of materials and energy.

Policy Statement

OxPE aims to:

- Ensure sustainability and carbon reduction are included in the curriculum;
- Integrate environmental management policies and good practice into all areas of OXPEG;
- Protect the environment by reducing the pollution of air, water and land that may result as a consequence of a OXPEG activity;
- Continually seek to improve responsible management and efficient usage of energy and water by identifying and implementing cost effective conservation measures;
- Prioritise and implement measures to promote waste reduction, re-use resources and recycle waste generated by the College;
- Avoid the unnecessary use of environmentally damaging substances and processes;
- Consider the environmental impact of any new College development;
- Minimise the environmental impact of decommissioning and disposal of College assets;
- Ensure that this Policy and sustainability and environmental reports and issues are communicated to staff and students.

ENCOMPASSING OXFORD COLLEGE OF MARKETING

Responsibilities

All staff are responsible for the promotion and implementation of the environmental and sustainability policy within their areas of responsibility.

All students and visitors to the OxPE are responsible for co-operating in environmental and sustainability initiatives and for making an effective contribution to the reduction of the OXPEG's impact on the environment.
